

Number Fluency Programme
Baseline assessment recording sheet: addition within 10 and adding 10

✓ = instant correct response / known fact X = incorrect / unknown S = uses a strategy C = counts on

The 'addition within 10 strips' have been designed for pupil conferencing to provide evidence of how confident children are with the first 10 strategies. It is important to ascertain how children derive the answers if, for example, it is unclear whether they use a strategy or count on.

The +2 group includes adding two to even and odd numbers and the +3 group refers to the 'near number bonds to ten' strategy and the 'number in the middle' strategy.

Name:

| + 1 | | + 2 even/odd | | bonds to 10 | | + 0 | | doubles | | near doubles | | + 3 | | + 10 | |
